WORK EXPERIENCE

Java Developer Intern

Feb 2026 – Present

Pushkal IT · Indore, IN

- Developed **10+ Retail ERP modules** including Purchase, Sales, Vendor, Customer, Billing, and Accounting using **Java**, **JSP**, and **Servlets**, improving end-to-end business workflow coverage.
- Built and integrated **GST Report** and **Profit-Loss Report** modules using **MySQL** and **JDBC**, enabling accurate financial reporting for **3 user roles** — Admin, Cashier, and Accountant.
- Implemented **role-based access control** for Admin, Cashier, and Accountant user types, reducing unauthorized access incidents across **3 permission tiers**.
- Designed **MVC architecture** patterns across all ERP modules, ensuring a clean separation of concerns and reducing code duplication by an estimated **30%**.
- Integrated **REST APIs** to support frontend-backend communication across **10+ modules**, enabling real-time data exchange within the ERP platform.
- Utilized **Git** and **Maven** for version control and dependency management across the full project lifecycle, maintaining a stable codebase through **multiple sprint iterations**.

Web Developer Intern

Sep 2024 – Dec 2024

Quality Webs · Indore, IN

- Developed **3 live client websites** using **HTML**, **CSS**, and **JavaScript**, delivering fully responsive, cross-browser-compatible interfaces within a **3-month** engagement.
- Integrated **REST APIs** into client-facing web applications, enabling dynamic data rendering and reducing manual content update efforts by an estimated **40%**.
- Collaborated with senior developers to implement responsive layouts using **CSS** best practices, achieving consistent rendering across **5+ device breakpoints**.
- Delivered all **3 projects** on schedule by following structured sprint timelines and peer code review processes alongside a cross-functional development team.
- Applied **JavaScript** DOM manipulation and event handling to enhance UI interactivity across client portals, improving estimated user engagement metrics.

PROJECTS

Retail Management ERP

Built a full-featured Retail ERP system with **10+ modules** — Purchase, Sales, Vendor, Customer, Billing, Inventory, Barcode, and Accounting — using **Java**, **JSP**, **Servlets**, and **MySQL**. Implemented GST calculation, Profit-Loss reports, and role-based access following **MVC architecture**, directly mirroring enterprise Java frontend development workflows.

Java · JSP · Servlets · MySQL · JDBC · MVC Architecture

Smart Placement AI

[GitHub](#) ↗

Developed an AI-based placement platform using **Spring Boot** and **Angular** with **TypeScript**, featuring **REST APIs** for authentication, resume upload, and analytics. Integrated **role-based dashboards** for multiple user types with dual database storage using **PostgreSQL** and **MongoDB**, showcasing full Angular-Java stack proficiency aligned with the target role.

Spring Boot · Angular · TypeScript · PostgreSQL · MongoDB · REST APIs
